

Leading Primary Maths

A special two-day event with

Anita Chin

Are you leading the implementation of the new NSW Maths K-6 Syllabus in 2024?
This special two-day conference is for you!

Following the success of Anita's special event last year, it's back by popular demand! Anita has adapted the program to meet the needs of schools now that they are teaching from the new K-2 Maths Syllabus.

Your team of current and aspiring leaders will learn together with Anita. They will be empowered with her strategies and ready-made tools to lead and transform teaching practice in maths at your school.

This year Anita will include training in how to create scope and sequences for the new syllabus to suit your context.

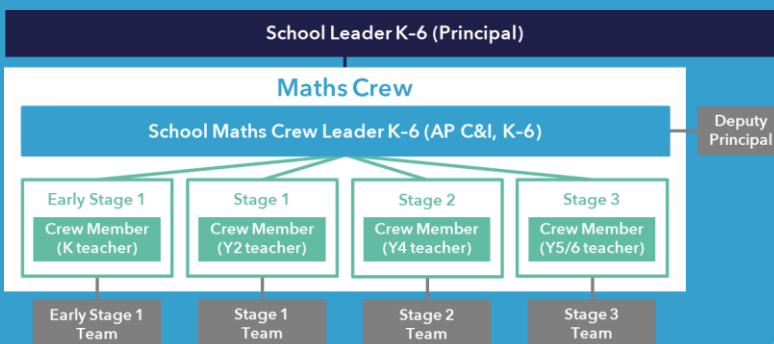

If your School Improvement Plan is focused on mathematics for 2024, then this is the event not to be missed!

About Anita Chin

With more than 25 years in maths education, Anita Chin's inspirational and practical approach has made her one of the most influential experts in primary education in Australia. She empowers teachers to transform the lives of children through maths.

Empower a team to lead maths

Anita believes a whole-school approach to maths is best led by a 'Maths Crew'. A Maths Crew is made up of classroom teachers led by a school leader, and supported by the school executive.

Who should attend?

Send a team of up to 8 educators – a mix of classroom teachers and school leaders:

- Principal or Deputy Principal
- AP Curriculum & Instruction
- Assistant Principals
- Current and aspiring maths leaders

What you will get

Each participant receives:

- Anita Chin's Primary Maths Framework
- Anita's Chin's Ultimate Toolkit folder packed with leadership tools and classroom-ready resources
- 2 days of high intensity PL with Anita Chin
- conference bag, morning tea and lunch

Each school receives:

- Anita's 360° School Reflection Tool
- a selection of Anita's Accountability Tools
- Anita's exemplar scope and sequence documents K-2 aligned to the new syllabus

Bankstown Sports Club, Sydney

Thursday & Friday 12-13 October 2023

The program

Day 1: Leading maths & making differentiation doable

2 days of
maths PL
with Anita

8:30 am - 8:45 am

Registration and refreshments

8:45 am - 11:00 am

Session 1: Leading mathematics

- Establishing your 'Maths Crew'
- Rosenshine's Principles of Instruction
- Anita Chin's Primary Maths Framework
- Developmental sequences of learning in the syllabus

11:00 am - 11:30 am

Morning Tea

11:30 am - 1:00 pm

Session 2: Fast-tracking change to make differentiation doable

- Supporting your teachers to embed maths language
- Setting up your teachers to implement visual models with ease

1:00 pm - 1:40 pm

Lunch

1:40 pm - 2:40 pm

Session 3: Optimising the classroom learning environment

- Getting the most out of your concrete materials
- Setting up the ultimate classroom learning environment to make teaching maths easier

2:40 pm - 3:30 pm

Session 4: Considerations for task design

- How to meet the needs of all students using Anita's strategies for differentiation

Day 2: Lesson structure & sequencing content

8:30 am - 8:45 am

Registration and refreshments

8:45 am - 10:30 am

Session 5: Consistent lesson structure throughout your school

- How Anita structures a week of teaching in maths
- Anita's 5-part lesson structure and how to implement it school-wide

10:30 am - 11:00 am

Morning Tea

11:00 am - 12:00 pm

Session 6: How Anita teaches lesson warm-ups... you be the student!

- How Anita uses lesson warm-ups to 'plug gaps' and connect concepts
- Experience a range of Anita's strategies for lesson warm-ups

12:00 pm - 1:00 pm

Session 7: How Anita teaches parts 2-5 of a lesson... you be the student!

- Experience how Anita introduces new content and transitions to student practice:
 - ▶ differentiating to meet the needs of the full range of learners
 - ▶ explicit teaching with Rosenshine's Principles in mind

1:00 pm - 1:40 pm

Lunch

1:40 pm - 3:10 pm

Session 8: Principles and strategies for a whole-school scope and sequence

- Anita's approach to writing scope and sequence documents K-6
- How to take your school context (and those interruptions!) into account
